- 1 .Got to Github
- 2 .Create a branch for this assignment
 - 1 .Dropdown menu and begin typing M1-Git-Readings
- 3 **Note:** In this assignment, we'll make the pull request later. In future assignments, we'll likely open it earlier so we can use the URL for assignments
- 4 .Fill in the items in the worksheet below (save as often as necessary)
- 5 .Once finished, export the worksheet
- 6 .Take the exported file and upload it anywhere in your repository (a Module1 folder is best, but not required)
- 7 .Use the dropdown in the top left to find the M1-Git-Readings branch and ensure the file is present
- 8 .If the file is there, either use the pull request popup or go to the pull request tab and open a request where main is base and M1-Git-Readings is compare
- 9 .Open and complete the merge of the pull request (it should turn purple)
- 10 Go to your M1-Git-Readings branch on GitHub and navigate to the submission file
- 11 Paste the direct link to that file on Canvas

Text: Reflection

i Details:

Summarize your understanding of the readings and how we'll be using git in this class.

Mention any issues you might have encountered and how you resolved them.

Checklist

*The checkboxes are for your own tracking

#	Points	Details
<input checked="" type="checkbox"/> #1	1	Mentions issues or no issues
<input checked="" type="checkbox"/> #2	1	Covers core concepts related to the readings
<input type="checkbox"/> #3	1	At least a few reasonable sentences

Response:

There has been no issues in using git and I understand why git is used so widely because of it's ease of saving your work as well as the tools it has to edit your work without fear of breaking other aspects of your code. A particularly interesting feature is the branch feature where you can edit a part of the code and then merge it back with the main branch. Although getting used to using the git commands and the interface of using git might take a while.
